What we make

For more than 30 years, we have been creating beauty every day and offering it to our customers. The ceramic products that we make are carefully crafted miniatures, hand-made by artisans, who put all their heart into this creative endeavour. They are remarkable souvenirs, that make wonderful presents for friends and family, as well as interior decorations or business gifts.

MINI KERAMIKA brings you accurate miniature copies of various buildings made by hand out of clay. They are crafted to recreate all the original details of the building, whether it be Cologne Cathedral, the Royal Palace of Amsterdam, the Kunst Haus Wien museum in Vienna, or your grandparent's house in the countryside. We have created a huge collection of miniatures depicting instantly recognisable famous buildings from around the world. It includes castles, churches, and historical monuments from Norway, Sweden, Finland, Estonia, Latvia, Lithuania, Poland, Germany, Belgium, the Netherlands, France, Austria, Switzerland, the US, the UK, Japan, and many more.
